

(Photo shown with optional additional continuous strikes)

AS DURABLE AS IT  
IS AFFORDABLE

Resistall™ Partitions are fully power washable and steam cleanable, eliminating the need for harmful chemical cleaners. Because they never need painting, Resistall™ Partitions deliver no VOC emissions and are GREENGUARD® Children and Schools Certified. What's more, they resist bacteria, odors, moisture and mildew.

#### NO MOLD GROWTH

Unlike metal partitions which have a cardboard core, Resistall™ Partitions are impermeable to moisture and does not support the growth of mold and mildew.

#### NO PAINTING

Resistall™ Partitions are solid color throughout and will not chip so they never require painting.

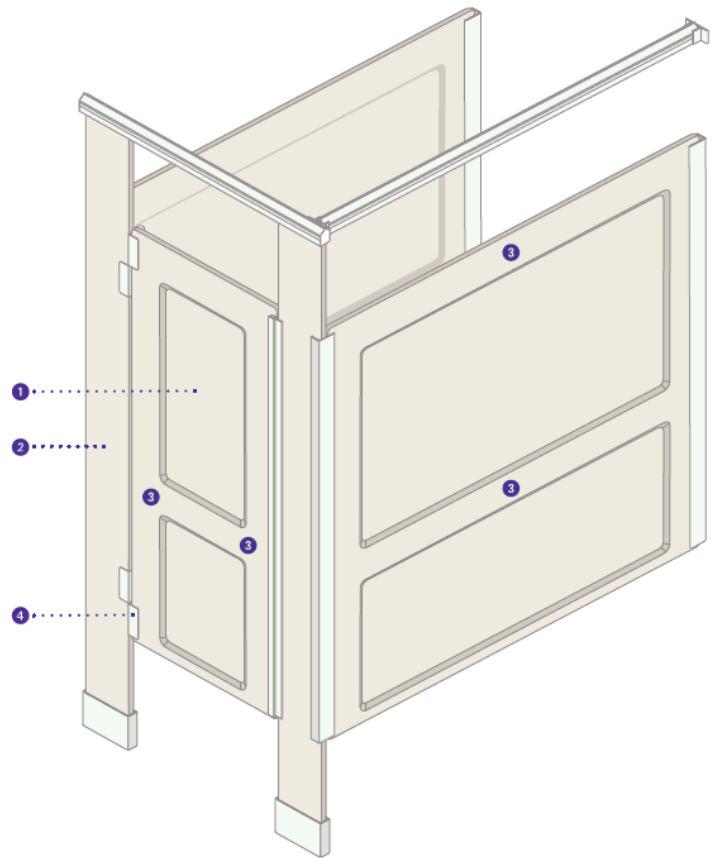

#### CLEANER, HEALTHIER BATHROOMS

When moisture comes in contact with metal, rust begins to form, becoming a breeding ground for germs.

# WE CALL IT RESISTALL™ FOR A REASON

Resistall™ <sup>Hybrid</sup> Partitions stand tough over time with many features and benefits. Unlike metal partitions, they are impermeable to moisture and will never rust or need painting. In addition, Resistall™ Partitions will not delaminate and are built to resist mildew, odors, corrosion and dents, saving you the added costs of maintenance.

- 1** **Paneled Design**
