

NEW Ridge Series™ Vanities pictured with matching Aria Restroom Partitions

BATHROOM VANITIES

COMMERCIAL BATHROOM VANITY UNITS

Scranton Products® commercial vanity tops combine durability with long-lasting good looks. Offered in a wide variety of colors, our commercial vanity units provide an opportunity for you to match your bathroom partitions and compliment your overall building's design scheme.

Our commercial bathroom vanity units do not absorb water and resist mold, mildew, and odors. They are also easy to clean and resist soap stains, making them the ideal addition to your commercial bathroom, and providing many years of worry-free performance and style.

NEW! RIDGE SERIES™ VANITIES

Scranton Products® is introducing Ridge Series™ vanities, our new low-maintenance HDPE bathroom vanity option with a built-in shelf-storage system and customizable face engraving. With high-end engraving options, it's the ideal commercial vanity design to complement your restroom's Aria Partitions®. New storage feature is ideal for recreational and hospitality facilities to store towels and extra items for guests.

Ridge Series™ vanities can be used with or without a vanity top, allowing you the option to build your product with another material option.

THE SUPERIOR BENEFITS OF SCRANTON PRODUCTS® VANITY TOPS & CABINETS OVER TRADITIONAL MATERIALS

✓ CLEANER, HEALTHIER BATHROOMS

Moisture contact leads to rust formation and absorption into corrugated or wood core materials, all becoming a breeding ground for germs.

✓ EASY GRAFFITI REMOVAL

Unwanted graffiti can be easily wiped clean from your Scranton Products bathroom vanities with a common non-abrasive cleaner.

✓ ECO-FRIENDLY

Scranton Products' brands are made from recycled materials and are themselves also 100% recyclable. Our brands are Greenguard Gold and LEED v4 certified.

✓ IMPACT & DENT RESISTANT

Scranton Products bathroom vanities are created using a highly durable material that actually helps withstand impacts and deter dents in high traffic environments.

✓ GERM & VIRAL RESISTANT

Scranton Products partitions showed a significant decrease in Influenza, Human rhinovirus and Human Coronavirus viral activity within 24hrs of exposure*.

Scranton Products partitions are naturally resistant to common bacteria including MRSA and a.baumannii which can cause Pneumonia*.

According to testing, Scranton Products partitions are highly effective at reducing MRSA and a.baumannii. Testing has shown that after 24 hours, a significant amount of MRSA died off the surface of solid plastic without the use of cleaning solutions or antimicrobial additives.

Scranton Products partitions inhibit bacterial growth and reproduction on the partition surfaces. What's more impressive is that the partitions resist bacteria, viruses, odors, moisture, and mildew.

Scranton Products partitions are fully power washable and steam cleanable.

*ISO 21702 Testing done by SITU for Influenza A virus (H1N1), Human rhinovirus 37 (Strain 151-1) and Human Coronavirus (229E).
