

NEW PRODUCT OFFERING

Yes, even the hardware is bacteria-resistant*.

KILL BACTERIA* AT THE TOUCH POINTS

Scranton Products is excited to partner with Trimco to provide customers with a line of exclusive Healthy Hardware for restroom partitions, providing a bacteria-killing hardware option. Trimco's Healthy Hardware® products are manufactured from CuVerro® bactericidal copper alloys that are registered by the U. S. Environmental Protection Agency (EPA). When cleaned regularly, these copper alloys have been proven to kill 99.9% of infectious bacteria* like ecoli, MRSA and Staph. This is not a coating, but rather an all-natural, solid copper-based alloy that will last for the life of the product. Copper is also the #1 recycled and recyclable metal, further supporting our sustainable mission.

WHY HEALTHY HARDWARE® IS SUPERIOR

- ✓ Proven to kill 99.9% of infectious bacteria* in 2 hours or less.
- ✓ Not a coating and won't wear off!
- ✓ Continues to kill bacteria* for the lifetime of the product - 24/7!
- ✓ Looks like stainless steel to match other hardware products.
- ✓ Wide range of hardware and touch surfaces available.
- ✓ Made in North America.
- ✓ Available in commonly used products like door pulls, hospital latches, push plates, exit device push pads, mortise lock levers and trim, and more.
- ✓ Made from Copper—the #1 recycled and recyclable metal!

HARDWARE OPTIONS

Don't worry, all touchpoints are bacteria-resistant*.

Door Pulls

**Double Door Pull Kit includes (2) Door Pulls

Latch

Coat Hook

*Laboratory testing shows that, when cleaned regularly, CuVerro surfaces kill greater than 99.9% of the following bacteria within 2 hours of exposure: Methicillin-Resistant Staphylococcus aureus (MRSA), Staphylococcus aureus, Enterobacter aerogenes, Pseudomonas aeruginosa, E. coli O157:H7, and Vancomycin-Resistant Enterococcus faecalis (VRE).

The use of CuVerro® bactericidal copper products is a supplement to and not a substitute for standard infection control practices; users must continue to follow all current infection control practices, including those practices related to cleaning and disinfection of environmental surfaces. This surface has been shown to reduce microbial contamination, but it does not necessarily prevent cross contamination. CuVerro® is a registered trademark of Wieland North America, Inc. and is used with permission (TR-0002-1509). See www.CuVerro.com for more details.
