

PRIVACY & HEALTH BARRIERS

NO LINES OR WAITING HERE!

An affordable solution to get your facility and workplace washroom ready for everyone's safer return.

WHERE PRIVACY MEETS EFFICIENCY

Scranton Products now offers larger barriers that can be used for increased protection and privacy between urinals, sinks and hand dryers. Maximize facility capacity while decreasing occupants' time in the restrooms and supporting safer social distancing. Provide safer protection with a naturally germ-resistant solution and avoid lines inside and outside the restroom or washroom.

WHAT YOU AVOID WITH HIGH PRIVACY BARRIERS

Avoid Lines Inside & Outside The Restroom

Increase Efficiency with No Wasted Space

THE SUPERIOR BENEFITS OF HDPE PLASTIC & INCREASED PRIVACY

Decreased Time in Restroom While Increasing Occupancy

Supports Social Distancing

Naturally Germ Resistant*

Avoid Lines In & Out of the Restroom

Safer Protection

Mold, Mildew & Odor Resistant

GERM & VIRAL RESISTANT

Scranton Products partitions showed a significant decrease in Influenza, Human rhinovirus and Human Coronavirus viral activity within 24hrs of exposure*. Scranton Products partitions are naturally resistant to common bacteria including MRSA and a.baumannii which can cause Pneumonia*. According to testing, Scranton Products partitions are highly effective at reducing MRSA and a.baumannii. Testing has shown that after 24 hours, a significant amount of MRSA died off the surface of solid plastic without the use of cleaning solutions or antimicrobial additives.

Scranton Products partitions inhibit bacterial growth and reproduction on the partition surfaces. What's more impressive is that the partitions resist bacteria, viruses, odors, moisture, and mildew.

Scranton Products partitions are fully power washable and steam cleanable.

ISO 21702 Testing done by SITU for Influenza A virus (H1N1), Human rhinovirus 37 (Strain 151-1) and Human Coronavirus (229E).
