

Surprisingly, seeking out your co-founder can be a lot like the dating world. Just ask Elizabeth Stephens and Renata Oliveira, co-founders of Architectural Cornerstone Group. The two went on their first "friend date" in 2021 after attending the same networking event and feeling like there was a possibility for a career connection somewhere in the works. From then on, they joined forces to begin the branding, and ultimately the launch of ACG in 2023.

Elizabeth Stephens

A Distributor Representative with over fifteen years of experience as a Project Manager for Division 10 Specialties. She specializes in Communication and is responsible for educating the Distributors on how to use manufacturers' systems and applications, including takeoff software, quoting systems, and other organizational apps. Elizabeth has a magnetic presence in the workplace and uses her positive attitude and energy to encourage others to work tirelessly towards success. Elizabeth is inspired daily by her husband and three children. In her free time, Elizabeth likes to fish, camp, and be out in nature.

Renata Oliveira

Renata Oliveira brings to the table 10+ years of experience in construction. She started out in the world of paint and spent the last five years of her career in the interior finishes world. She is passionate about assisting her clients specify the perfect systems for their projects while keeping them up-to-date on the latest trends and new products. A native Brazilian, Renata has had the privilege of calling Texas home since the mid-2000's. She is also very involved in supporting her community, and volunteers her time raising money for veteran mental health programs and animal rescue groups. She lives in North Texas with her husband, her son and her *four* big dogs.

Scranton Products

Architectural Cornerstone Group is proud to distribute Scranton Products. With over 30 years of experience, Scranton Products is the industry-leading HDPE toilet partition and lockers manufacturer. Constructed from premium, American-made highly engineered materials, our HDPE products resist dents, scratches, corrosion, graffiti and mildew.

Throughout the years, Scranton Products has developed new products using HDPE plastic including lockers, bathroom partitions, shower stalls, benches, dressing compartments and vanity tops. These product introductions were designed to provide products that perform better in their applications than traditional materials while providing improved aesthetics and lower maintenance. When you purchase Scranton Products, you are investing in peace of mind. With unmatched durability and an array of designer colors and textures, Scranton Products installs confidence in every project.

We would love to talk!
