

# NEW OPTION

& Retro-Fit Available

**ARIA  
PARTITIONS**

US PATENT NO. D887,021

Enhance both design and functionality with our **new Frosted Acrylic Transoms**.

Engineered for Scranton Products Aria Partitions, these transoms allow natural and ambient light to pass into each stall, creating a brighter, more comfortable environment.

Beyond aesthetics, they improve accessibility by supporting visibility of emergency signaling devices for individuals who could be hearing challenged.

**A smart solution that combines modern style, safety, and inclusivity—without compromising the clean lines of the Aria Partitions.**

## BRACKET

Step bracket for Frosted Acrylic Transom

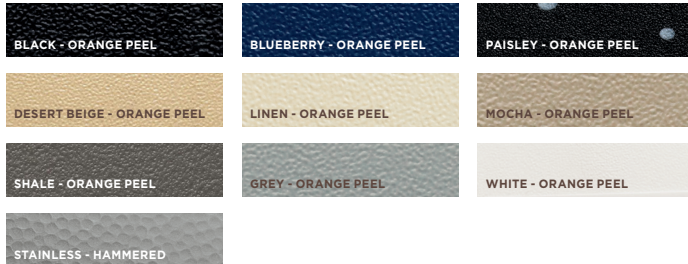

## FEATURES & BENEFITS

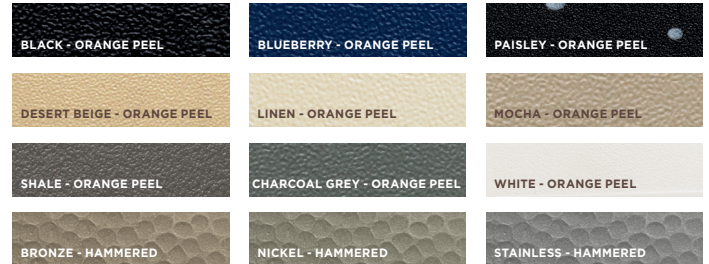

- **Architectural Upgrade** – Frosted acrylic transoms create a refined, modern design feature that elevates the overall restroom aesthetic.
- **Seamless Integration** – Complements Aria Partitions clean lines and contemporary style.
- **Enhanced Lighting** – Allows natural and ambient light into the stall, creating a brighter, more inviting space.
- **Accessibility Consideration** – Supports visibility of alarms for individuals who could be hearing challenged.
- **Flexible Application** – Can also be retrofitted into existing Aria Partitions.
- **Privacy Maintained** – Frosted finish balances light transmission with discreet privacy.
- **Durable Construction** – Made from high-quality acrylic to withstand daily use in high-traffic environments.
